General Statement of Professional Experience (written by firm)

Oak Engineers (Oak) is a New England consulting and engineering design firm composed of local offices serving local clients. Oak has proven accomplishments in infrastructure design, facilities planning and design as well as permitting for public agencies and private clients. With offices located in Portland, ME, Oak employs a staff of over fifteen professionals. Oak has successfully completed a wide range of projects for public sector clients including highway and road design; utility design including storm drain, sanitary sewer, water, electrical, telecommunications and gas infrastructure; federal, state and local permitting; Low Impact Development design as well as stormwater management design. Oak offers many services to our clients including civil and sanitary design, cost estimating, drafting, specification writing, construction management and planning services.
